25 CENT "DANDERINE" FOR FALLING HAIR AND DANDRUFF—GROWS HAIR

Don't pay 50 cents for worthless hair tonics—Use old, reliable, harmless "Danderine"—Get results.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; or dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast.

A little Danderine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application you will say it was the best investment you ever made. Your hair will immediately take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and the appearance of abundance, but an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

LOOSE CHANGE

Do you want to know why most of us haven't a good bank account? It is because a dime or a nickel is spent without giving it a second thought. If an article costs a dollar or two we stop and commence to wonder whether we really need it or not. If it costs a penny or a nickel, out it comes and it's gone. Now, how are you going to get it back? Can you get it as easy from some one else? Ask yourself. It isn't the dollars you spend that keep you hard up. It's the small parts of a dollar. Try and save your small change and the results will astonish you.
